OIPE/JCWS   JUN -9 2005   RECEIVED

Response to Restriction

Sir:

In response to the Notice of Restriction dated April 8, 2005, Applicant elects the Group 1 claims 1-13, drawn to a system.

However, Applicant believes that at least claims 16-26 and 30-42 are linked to the Group 1 claims, and should be examined along with the Group 1 claims.

Claims 16-26 depend from claim 1, and should hence be examinable along with the claims from which it depends. Therefore, it is believed that claims 16-26 are properly within the elected group.

Claim 30 recites acquiring information and sending the information to a remote server. The information is used at the remote server to calculate a position of the local area, and returned to the client at the local area. With all due respect, this claim is linked to claim 1, which recites an apparatus for carrying out very similar functions.

Attorney's Docket No.:
Client's Ref. No.:

Therefore, with all due respect, claim 30 is believed linked to the elected Group 1 claims.

Claim 36 similarly recites calculating the position in the remote processing element, and taking an action without calculating the position in the local processing element. Again, these functions, are believed linked to those in claim 1, and hence one should be examined along with the claims that depend therefrom.
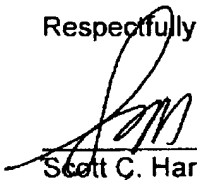

A notice on the merits is requested.

Please charge the one month extension fee of $60 to deposit account no. 50-1387. If there are any other charges, or any credits, please apply them to Deposit Account No. 50-1387.

Respectfully submitted,

Date: 6/7/05
